

DTU SKYLAB / ZACCO

FREE CONSULTANCY HOUR - AND NOVELTY SEARCH FEE

The opportunity of ongoing dialog with Zacco

Once every month, Zacco will visit DTU-Skylab, where we will be available for open consultation hours, free of charge. A consultant from Zacco will answer questions to patents and intellectual property rights that you may have.

Stay updated on visiting dates through the DTU Skylab calendar or the contact person at DTU-Skylab, Pål Fernvall.

One hour free meeting with a patent consultant

The meeting should be based on a new idea for which patent protection is considered.

A meeting will be relevant if:

- You have a good idea
- You may have developed a prototype or a simulation platform
- You have kept your idea confidential

Please go to the contact person at DTU-Skylab Pål Fernvall to arrange a meeting.

For more information, please contact:

Pål Fernvall, DTU – psfe@dm.dtu.dk (+45 45 25 10 98)
Heidi Kuhre, Zacco - hkh@zacco.com (+45 39 48 81 48)

Patentability assessment of your invention

The patentability assessment will be based on a limited novelty search in various patent databases. The patentability assessment does not include inspection of scientific papers or other types of documentation.

Novelty search (limited)

Novelty search + oral evaluation of the idea:
5.000 DKK + VAT/moms (per. idea)

Novelty search + written evaluation of the idea:
8.000 DKK + VAT/moms (per. idea)

The oral or written evaluation will disclose whether the invention, based on the novelty search, may be patentable.

The written evaluation includes a search report with an overview of up to five relevant patent documents and a short description of why the documents may be relevant.

What may a novelty search additionally be used for?

- As inspiration in the development process.
- To strengthen a potential patent already in the process of drafting the patent application.

Why choose a written evaluation?

- A positive evaluation may be used to convince investors to invest in the idea(s).
