SMART CITY HUB #2

Date: Thursday, February 23, 2017
Time: 5 PM - 8 PM
Place: DTU Skylab, Skybox 1+2
Diplomvej 373A, 2800 Kgs. Lyngby

What is 'Smart City Hub'?

'Smart City Hub' is an informal platform for the development of Smart City projects and solutions by using data.'Smart City Hub' creates cooperation, meetings and solutions across students, businesses, researchers and Lyngby-Taarbæk Municipality, all working with data and hardware on a technical and/or at business level.

How does it work?

'Smart City Hub' is held every second Thursday of the month in DTU Skylab, Skybox 1+2, from 5-8 PM (food included).
In each hub a relevant Smart City-theme such as 'Smart Supply', 'Smart Buildings', 'Smart Planning' or 'Smart Mobility' will be discussed.
Everyone will contribute - some with data, some with ideas, skills or resources, others with tools and insights into challenges.

What's in it for you?

In the 'Smart City Hub' you will encounter new Smart City-thinking and use your competencies when working with other stakeholders.
Perhaps you need a collaborator for your bachelor/master project?
'Smart City Hub' is where you will find each other.

Programme for February 23, 2017:

17.00 - 17.15: Getting started
by Fred Heller, Deputy Manager at CITIES, DTU
17.15 - 17.45: Today's challenge : 'Internet of Things and transport'
by Lyngny-Taarbæk Municipality and IoT Denmark.
**17.45 - 18.45:** Group session and hacks
by Fred Heller
18.45 - 19.15: Sandwich and drinks
19.15 - 20.00: Recap of the discussions and next steps

We look forward to seeing you.
